PROJECTS

Scope India Educational Website | *Python, Django, HTML, CSS, JavaScript, SQL*

[Live link](#)

- Developed a website that allows students to register and log in securely, ensuring a smooth authentication process. Built with Django and SQL for robust data management, while Bootstrap enhances the frontend for a responsive and visually appealing experience.

Gmail Inbox Clone | *Python, Django, HTML, CSS, JavaScript, SQL*

- Features include sending messages, viewing messages, deleting messages, and starring important messages. Implemented a Django backend with a structured database, AJAX for dynamic updates.

Contacts | *Python, Django, HTML, CSS, JavaScript, SQL*

- It is a CRUD-based web application using Django to store and manage personal details. Implemented Create, Read, and Delete functionalities, allowing users to add new records, retrieve details by name, and remove saved entries.
